

Project Summary Template

Module 7 | Your portfolio-ready project documentation. Fill this in, proofread it, and keep it forever.

PROJECT NAME:

YOUR NAME:

DATE COMPLETED:

PROJECT TRACK (circle): Track 1: Productivity Tool | Track 2: Portfolio/Community | Track 3: Data Explorer

LIVE URL:

Section 1: What I Built

Describe your project in 3–5 sentences. What does it do? Who is it for? What makes it useful?

Section 2: Why I Built It

What problem does this solve? Why did this matter to you personally?

Section 3: How I Built It

TOOLS USED:

HOW AI HELPED:

Describe how you used AI throughout the project. Be specific: prompting, code generation, debugging, content creation, brainstorming.

Section 4: The Journey

BIGGEST CHALLENGE and how I overcame it:

WHAT CHANGED from my original plan and why:

WHAT SURPRISED ME:

Section 5: What I Learned

ABOUT BUILDING:

ABOUT AI:

ABOUT MYSELF:

Section 6: Key Features

List the main features of your finished project:

Feature	Description

This document is portfolio-ready. Include it with college applications, scholarship submissions, or job applications. It demonstrates initiative, technical skill, ethical awareness, and follow-through.
